

## INTERNSHIP

Servant leadership: a journey of restoration

*"If I then, the Lord and the Teacher, washed your feet you also ought to wash one another's feet. For I gave you an example that you also should do as I did to you."*  
John 13:14-15

The fifth and final semester is an additional six months as an internship. The student will complete an unpaid, onsite internship where they transition into an official staff role on the camp. They will experience more freedoms and privileges than they previously had in the program in order to allow them greater opportunity to apply all they have learned, but still be in the support of healthy community living so they can work through their successes and failures without reverting to old thinking and behaviors. Their new found identity and purpose in Jesus Christ will be the foundation for their continual growth and discipleship as they learn to give back to the other students in the program and serve alongside the TLC staff team.
