

UNDERCLASSMEN

(freshmen & sophomores)

Self-discovery: a journey of healing

"But God demonstrates His own love toward us, in that while we were yet sinners, Christ died for us."

Romans 5:8

The first and second semesters are a six month program where the student has the opportunity to learn and grow through attending class, receiving individual biblical counsel and guidance, involvement in small community groups supporting other students as they learn and grow together, and taking ownership of their belongings and the camp as they work with other students and staff to care for the grounds and learn to live in healthy community with others. The student's progression through the program is measured not only in tangible goals and completing specified tasks, but their progression is also dependent on their growth spiritually, mentally and emotionally as they learn to be men of integrity and character. These first six months are an opportunity for the student to begin understanding that there is hope and that Jesus Christ truly does love them and wants them to have lives of freedom and purpose.
